- (1) Price for booking of more days is the sum of the price for the 1. day, price for the 2. and 3. day, and of the price for the 4. and next days. Time of reservation in the last day is charged based on hourly rate, if the price does not exceed maximum daily rate. Minimum reservation time that is charged is 30 minutes.
- (2) The time of reservation is charged as it was inputted into the reservation system (or changed in due time) at the moment of its commence. The beginning of reservation equals the time in the reservation system, not the moment of opening the car. If you return the car earlier, the last unused hour or half of an hour is not charged. When prolonging or cancelling your booking after it has begun, maximum of 24h is charged, measured from the moment of change or cancellation. Besides the above no other changes (shortening) of reservations are considered in the price.
- (3) The time of the reservation is charged from the beginning of reservation made. By „day“ we mean 24h from the beginning of the reservation (not calendar day).
- (4) Price for the distance driven is calculated as the sum of the price for kms up to 200 plus the price for kms above 200.
- (5) Booking charge is charged for each valid reservation. Particular rate according to price list depends on the day (date) of the beginning of the reservation.
- (6) Entry deposit is due after the signature of framework contract and is fully refunded after cancellation of the contract.
- (7) Additional insurance "Safety plus" is valid from the date of confirmation of your request. Minimum charged sum for additional insurance is for one whole accounting period no matter the exact date of the beginning of insurance. It is charged when you have at least one booking during the accounting period. "Standard" insurance is always included in the service.
- (8) Total damage is considered as sum excl. VAT, the invoice items have 0% VAT.
- (9) Eligible expenses are deducted from your regular invoice upon submission of a receipt or other proof of payment. Repayment of expenses may be delayed by up to 90 days due to administration.
- (10) Tesla category is not covered with our optional insurance coverage „Safety plus“. In case of an accident caused by the driver of Tesla we always apply rules of insurance called „Standard“.
- (11) In case of suspicious or illicit behaviour of a user towards Autonapul, družstvo, it is possible to issue an invoice immediately after the trip or even before the trip with an appropriately shorter invoice due date.
